KRISHNA G. PAWAR

krishnagpawar.in@gmail.com | +91 88674 34799 | linkedin.com/in/krishnapawar05 | github.com/krishnapawar05

SUMMARY

Computer Science undergraduate focused on full-stack software development, with hands-on experience building web applications and AI-powered solutions through industry internship and personal projects. Skilled in Java, JavaScript, React.js, Node.js, Express.js, and databases, with additional experience in AI applications.

EDUCATION

Bachelor of Engineering (BE) in Computer Science and Engineering **2024 – 2027**
KLE Institute of Technology, Hubballi, Karnataka | CGPA: 8.54 (through 6th semester)

Diploma in Computer Science and Engineering **2021 – 2024**
K H Kabbur Institute of Engineering, Dharwad, Karnataka | CGPA: 9.34

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, C
Frontend: HTML5, CSS3, React.js, Responsive Web Design
Backend: Node.js, Express.js, JSP, Flask, REST APIs, API Integration
Databases: MySQL, MongoDB
AI / Machine Learning: TensorFlow, YOLOv8, OpenCV, Computer Vision, OCR, Image Processing
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving, Debugging
Tools: Git, GitHub, VS Code, Eclipse

EXPERIENCE

Full Stack Development Intern **January 2024 – April 2024**
Athreya Technologies, Hubballi, Karnataka

- Developed a full-stack web application using **Java, JSP, HTML, CSS and MySQL**.
- Implemented user authentication, cost estimation, dashboard and business insights modules.
- Built responsive UI components and debugged cross-browser compatibility issues in CSS and JavaScript.
- Used Git and GitHub for version control and collaborated with other developers on the application.

Full Stack Development & Data Structures Trainee **2025 – Present**
Apna College – Sigma 10, Online (ongoing training program)

- **Java, Data Structures & Algorithms**, HTML, CSS, JavaScript, **React, Node.js, Express.js** and **MongoDB**.
- Practise DSA and problem solving through coding exercises and programming challenges.

PROJECTS

SmartVision – AI-Powered Assistive Technology for the Visually Impaired **September 2025 – March 2026**
New Age Innovation Network (NAIN 2.0), Government of Karnataka | Patent Pending

- Developed an AI-powered assistive prototype that helps visually impaired users read text and identify nearby objects.
- Combined **OCR** for digital and handwritten text, **Text-to-Speech (TTS)** output and **YOLOv8** real-time object detection.
- Designed for privacy, reliability and usability; won **1st Place at the NAIN 2.0 Graduation & Demo Day**, IIIT Dharwad.

Genetic Purity AI – AI-Based Crop Genetic Purity Detection | github.com/krishnapawar05/genetic-purity **2026**
Python, Flask, TensorFlow/Keras, OpenCV, MongoDB

- Built a **Flask** web application that classifies chilli plant specimen images as male, female or hybrid using a **MobileNet-based Keras model**, with **OpenCV** image preprocessing and validation before prediction.
- Implemented user authentication with Flask-Login and bcrypt password hashing, Twilio SMS OTP password reset, CSRF protection and request rate limiting.
- Integrated **Razorpay** payments with HMAC-SHA256 signature verification, stored users, payments and predictions in **MongoDB**, and generated PDF reports with QR-code verification links; configured Gunicorn for deployment.

ACHIEVEMENTS

- **1st Place** – NAIN 2.0 Graduation & Demo Day, IIIT Dharwad (Government of Karnataka NAIN 2.0 program).
- **2nd Runner-Up** – HackArena 2K26, Jain College of Engineering & Technology

CERTIFICATIONS

- Problem Solving Through Programming in C – NPTEL, 2026
- Build Real World AI Applications with Gemini and Imagen (Machine Learning & AI) – Google Cloud Skills Boost, 2025
- TCS iON Career Edge – Young Professional – Tata Consultancy Services iON, 2025
